

Biography: Andi Windham
Permitting and Registration Support
Texas Commission on Environmental Quality

IHW Registration Program Specialist

Andi assists the IHW registration team with data entry, and is on the team revising the Texas Administrative Code to adopt the generator improvement regulations.

Prior Experience and Education

Andi has a master's degree in Library and Information Science from the University of Texas. She has worked for TCEQ for 4 years. She uses her experience in database management to ensure that the data regarding IHW registrations remains current for both TCEQ and EPA applications. In the past year, she has revised the all of forms used in her section to make them more user friendly and to allow for electronic completion. She also handles the IHW registration team's records management and manages their web pages.
